MASON COUNTY PUD No. 1

CROSS CONNECTION CONTROL

WAC 246-290-490
requires the PUD to have
a Cross Connection
Control Program and
requires our customers to
have backflow
assemblies installed.

Protect your DRINKING WATER

Test BACKFLOW ASSEMBLY

Have your backflow
assembly tested each year
to ensure it protects your
drinking water supply.

If you have a backflow assembly device installed already, ***you are required to have it tested every calendar year.*** Properties connected to the District's water systems and have the following types of plumbing are required by state law to have a backflow assembly device installed:

**Irrigation
System**

**Drip Irrigation
System**

**Swimming
Pool**

Hot Tub

Pond

**Animal
Troughs**

**Booster
Pump**

**Private
Well**

**Dock with
Water Supply**

**Green House
with Irrigation**
