2.2.1	Take trailers to be repainted	Replaced the trailer instead. Removed from plan.	Darin	1Q
2.2.2	Make sure all costs are being captured in Fleet Management- fuel costs, etc.	This is occurring with our current capabilities. However, we have put a new fuel management system out to bid for 2019.	Darin/Kristin	Ongoing.
2.3	Electrical BKI Engineering			
2.3.1	Jorstad Substation- obtain perpetual easement for substation transmission, tap and feeders	Several routing options were reviewed and the route primarily along the road was selected. The Forest Practice Application and Mason county Environmental Permit Application are being developed for submission to the county. EJK 02/08/2018 Still moving forward; nothing new to report.	BKI/Darin	3Q: Dept of Natural Resources Permit; 4Q: Easements
		The Mason Environmental Permit application is in progress including a survey and environmental study.		
2.3.2	Comprehensive system planning study	The 2018-2027 project list, budget, and overall project map has been completed. EJK 1/8/2018	ВКІ	Complete
	Design and permit for Manzanita to Old Union Sub: 500 kcmil Al. UG	The area was physically reviewed for routing and reliability. A preliminary layout was developed for water lines to take advantage of the power lines being installed in the same area. EJK 3/8/18	ВКІ	3Q
2.3.3		The boundary line and right-of-way survey is in progress, scheduled to be completed in May. Once the legal survey is complete, the path will be refined and then reviewed with the County. EJK 4/24/18 The surveyor is still working on his research and survey; expected completion is in June. EJK 6/7/2018		
		The surveyor has completed the survey of the entire path. Preliminary layout drawing for water and power is being completed, to be followed by a detailed field review. EJK 8/6/2018		
		The preliminary layout was reviewed on site with the County road department. Multiple obstacles were noted by the County. The routing will now follow the existing 34.5kV transmission easement.		
	Manzanita permitting and design for future substation	Mason #3 can provide adequate capacity to serve the entire Union load during light load periods, and about 75% of the load during the winter. A preliminary one-line diagram and general substation layout has been completed. The Forest Practices Application has been sent in to the county. The preliminary layout was fleshed out with additional information including future water lines and specific equipment locations.	ВКІ	2Q: County FPA 3Q: Clearing and grading
2.3.4		The preliminary site plan layout application was made to the County for approval. Pre-application conference is to be the last week of March. Once the conference is completed the Forest Application permit can be filed. BAW 3/23/18		
		Pre-application conference with the County was completed. Waiting for the official pre-application letter from the County. EJK 4/24/18		
		Pre-application letter was received. The County is requesting a design change to move the entire substation location by 30' and add a landscape buffer. We will		

	Tacoma Pole Yard Clean-up/Environmental engineering	research to determine if this requirement is actually in the county code. Also, the county has reviewed the FPA and has requested updates to the SEPA. These changes to the SEPA will be made and sent to the county for the FPA. EJK 6/7/2018 Pre-application conference and report to Mason 1 for changes in site plan. Finalize application for FPA and revise application for permitted use. BAW 6/11/18 The finalized FPA was submitted to the county in July. Waiting for County response. EJK 8/6/2018 Completed for 2018. Necessary items moved to 2019 budget and strategic plan. Poles removed from Tacoma Site. Still waiting on Tacoma Power's response for	BKI/Darin/Steve	There are four Phases to

2.3.6	On call design & permitting for special projects	Nothing to report.	ВКІ	Ongoing
	Get a design & cost for 106 Rebuild including permitting	The area was physically reviewed for routing and reliability. The next step is to determine existing underground utilities and proceed with preliminary design. EJK 2/22/2018	BKI	On hold (see explanation)
2.3.7		Once the surveying is complete for the Manzanita to Union Sub distribution and Manzanita to Mason #3 tie, the surveyor will start on this project. EJK 6/7/2018 Due to COSA impacts, this project has been delayed for several years. EJK 7/9/2018		
2.3.8	Alderbrook to Jenn's Way URD replacement- secure easements	 The area was physically reviewed for routing and reliability. The next step is to verify Green Diamond will grant an easement. If they will, then Jenn's Way will be designed, followed by the section through Alderbrook. EJK 2/22/2018 It appears Green Diamond has slowed their development plans. Continuing to work on this, as Green Diamond provides information. 4/24/18 Green Diamond has significantly slowed down their plans. Tacoma Power transmission ROW is also causing some concern. The overall project has been scaled back for now to include only Manzanita road from the substation to the end of the pavement, so the easements on Green Diamond are now on hold. EJK 6/7/2018 Due to concerns with Green Diamond / Tacoma Power easements and impacts to the COSA, this project has been split into two parts, with the first part commencing in 2019 and the second part commencing in 2024. EJK 7/9/2018 	BKI	3 Q: Design 4 Q: Permits On hold (see explanation)
