Mason County PUD No. 1 is an equal opportunity employer; small business, minority and women owned firms are strongly encouraged to apply.

PROPOSAL SELECTION AND EVALUATION:

SELECTION PROCESS

The District reserves the right to act as sole judge of the contents of the proposals and for selection of a contractor. The award of a contract will be based on the lowest responsive proposal submitted from a responsible contractor.

Adherence to Form

All proposals submitted in response to this RFP must adhere to the format set forth in this RFP. Failure of the contractor to adhere to this format may eliminate their proposal from any further consideration.

Required Additional Material

All bidders shall submit a brief statement of their proposed work schedule and work objective to achieve the required scope of work, description of qualifications with the total number of employees available to service this contract, and list a minimum of three (3) client references; and any other information which would be beneficial to the District for purposes of evaluating this proposal.

EVALUATION PROCESS

Evaluation of the proposals and their cost effectiveness to the District will be made by the District's management team. The management team will evaluate all information provided in the proposal documents to determine the

compliance to requirements set forth in this RFP, and responsible qualifications of the individual(s) or firm(s) submitting a proposal.

EVALUATION CRITERIA

The evaluation and determination of the fulfillment of the following requirements will be made by the District and its judgment will be final. False, incomplete, or unresponsive statements in connection with a proposal may be sufficient cause for its rejection. Criteria to be used in the selection process will include, but may not be limited to, the following considerations;

- **Cost-** To be considered cost effective, a proposal shall provide the required services at the lowest cost to the District.
- **Contractor's Experience** - Of particular interest will be those services provided to projects of similar size and scope of service.
- **Contractor's Capability** - Contractor's proposed scope of work, suggested materials, and visual enhancements.
- **Contractor's Understanding of the Work** - Demonstration of the Contractor's understanding of the magnitude and complexity of the maintenance services and expertise required to perform successfully under the contract. Ability to comply with minimum specifications as set forth in scope of work.

INVOICING:

Contractor shall provide time and material invoices for each project to the District at the completion of each project in a format acceptable to the District for work performed to the date of the invoice.

Attachment A - SCOPE OF WORK

The Contractor shall:

- Inspect all reservoirs for sediment and defects.
- Clean as necessary to remove all sediment, debris, and bacteria harboring media.
- Record all procedures using cameras capable of focusing on the entire interior surface with high resolution video to include narration. Video record shall play back in Microsoft Media Player.
- Provide live video feed and live voice communication for monitoring of entire procedure.
- Defects shall be noted on inspection report, with owner option for repair.
- Final report of inspection findings and recommendations to be provided in Adobe PDF format and sent on USB drive, compact disc, or by electronic mail (email).
- Inspections and cleanings shall be completed by **October 31, 2020**.
- Final reports shall be submitted to Mason PUD 1 by **November 30, 2020**.

Reservoirs will be left in service during cleaning, if possible. Inspection and cleaning procedures shall not create any visible turbidity in water column. Preferred cleaning equipment 'scrubs' the interior surface utilizing a rotating brush, or approved equal method or equipment.

All divers entering reservoirs/tanks must wear a disinfected vulcanized rubber dry suit and hard hat or helmet dedicated for use in potable water. SCUBA and full face mask gear is not acceptable.

All dive equipment and procedures must meet WISHA, OSHA, ANSI, and ACDE regulations and guidelines. Additionally, procedures for potable water reservoir cleaning (including disinfection) must meet AWWA C652-02 and Washington State Department of Health established guidelines.
