Description of Proposal

Project to include: Replace existing pumphouse structure. Cost to include: removal and disposal of existing pumphouse structure, construction of new pump house to meet Mason PUD's standards. Construction of up to 6,000 gallon reservoir near the pumphouse. Construction costs to include: site preparation, reservoir materials, reservoir installation, controls, telemetry, on-site piping, connection to distribution system, fencing and security. Installation of approximately 860 feet of up to 4-inch diameter water line to replace Canal View water mains. Water line costs to include: pipe, valves, backfill, bedding, surface restoration, traffic control, service lines, meters, hydrants, valves, utility relocation, and other appurtenances. Submission of project reports and construction documents to Southwest Office of Drinking Water for review and approval.

The determination of this non-significance is based on replacing already existing facilities, and not performing any activities that threaten the surrounding environment.
