Page SGC-3, SUPPLEMENTARY GENERAL CONDITIONS 3.03.4(3.1),  
APPRENTICE UTILIZATION, COMPLIANCE

**REVISE** the second and third paragraphs as shown below (added text is italicized, deleted text is shown as strike out):

“If the Contractor fails to actively attempt to employ Apprentices, submit GFE documentation, or if the Engineer does not approve the GFE, the Contractor will be assessed a penalty. The Engineer will provide the Contractor with a written notice at Final Acceptance of the project informing the Contractor of the failure to comply with this specification which will include a calculation of the penalty to be assessed. *The penalty will range between \$500 and \$2,500 depending upon the degree to which the Apprenticeship goal was missed, as described in Section 01200.* ~~as provided for in the Payment section in this special provision.~~”

If the Contractor achieves the required Apprentice Utilization an incentive of \$2,000, *as described in Section 01200*, will be assessed with Final Payment.”

**II. PRE-BID MEETING**

**ITEM 1:**

MCPUD 1 will not be holding another pre-bid walk through on this project.

23. Apprenticeship Incentive

- a. Measurement: Shall be measured by calculation.
- b. Payment: For the purpose of providing a common Proposal for all bidders, the Contracting Agency has entered an amount in the Proposal for Apprenticeship Incentive to become a part of the total bid by the Contractor. An incentive of \$2,000.00 will be assessed with the Final Payment for Contractors who meet the Apprentice Utilization Requirement without a reduction by Good Faith Effort, as described in Section 3.03.4(3.1) of the Supplementary General Conditions.

Where there are multiple schedules of work containing Apprenticeship Incentive items in the Proposal, the measurement by calculation for each incentive item will be based on the assessment of the entire project as a whole meeting the Apprentice Utilization Requirement without a reduction by Good Faith effort, rather than by schedule of work.

24. Apprenticeship Penalty

- a. Measurement: Shall be measured by calculation. Apprenticeship Hours will be measured for each hour of work performed by an apprentice as shown on the Monthly Apprentice Utilization Report, based on certified payrolls or the affidavits of wages paid, whichever is least. The percentage is not rounded up.
- b. Payment: For the purpose of providing a common Proposal for all bidders, the Contracting Agency has entered an amount in the Proposal for Apprenticeship Penalty to become a part of the total bid by the Contractor, as described in Section 3.03.4(3.1) of the Supplementary General Conditions. When the Contractor fails to meet the Apprenticeship Requirement of 15 percent, a penalty will be assessed for a percentage range of unmet requirement, unless a Good Faith Effort is approved by the Contracting Agency.

Apprenticeship Penalty will be calculated as described below:

<b>Percent of Requirement Met</b>	<b>Penalty</b>
>90% to <100%	\$500
>75% to 90%	\$1,000
>50% to 75%	\$1,500
>0% to 50%	\$2,000
0%	\$2,500

Where there are multiple schedules of work containing Apprenticeship Penalty items in the Proposal, the measurement by calculation for each penalty item will be based on the assessment of the entire project as a whole meeting the Apprentice Utilization Requirement without a reduction by Good Faith effort, rather than by schedule of work.

The Contractor shall include all related costs in the unit Bid prices of the Contract, included but not limited to implementing, developing, documenting, and administering an apprenticeship utilization program, recording and reporting hours and all other costs to comply with this provision.
